Hypertrophic Cardiomyopathy With Left Ventricular Apical Aneurysm: Implications for Risk Stratification and Management

J Am Coll Cardiol 2017;69:761-73.

On page 761, the second sentence of the Results section in the Abstract read: The sudden death event rate was 4.7%/year.

It should have read: The sudden death (SD) event rate was 4.7%/year, which includes sudden death, successful resuscitation from cardiac arrest or appropriate ICD interventions triggered by VF or rapid VT.

The authors apologize for this error.

The online version of the article has been corrected to reflect this change.
