High-Sensitivity Troponin T and Mortality After Elective Percutaneous Coronary Intervention

J Am Coll Cardiol 2016;68:2259-68.

The hazard ratios (HRs) with 95% confidence interval (CI) in Figure 1 were erroneously switched. The upper HR applies to the lower Kaplan-Meier curves of mortality and the lower HR applies to the upper Kaplan-Meier curves of mortality. The corrected figure is shown below.

The online version has been corrected.

The authors apologize for this error.
